Objectives

As a recent graduate of an edX full-stack web development bootcamp, I am eager to apply my skills in HTML, CSS, JavaScript, and server-side technologies to a role in a dynamic company that values innovation and technological advancement. My training has equipped me with the ability to build responsive, user-centered applications from the ground up. I am looking for opportunities to contribute to a team that pushes the boundaries of web technologies and creates impactful digital experiences.

Experience

Operations Supervisor, Marmaxx, Manteca, CA

September 2018 – November 2023

- Oversee pool point production activities (receiving, sorting, shipping, etc.)
- Manage KPI's and communicate through daily team huddles
- Regular communication with customer to discuss needs and concerns
- Manage 30+ employees
- Responsible for meeting quality requirements and auditing of work processes
- Special projects / continuous improvement coordination
- Responsible for onboarding and training of new hires
- Arrange repairs for equipment that is faulty

Operations Supervisor, CEVA Logistics, Hayward, CA

August 2017 – September 2018

- Manage training program at a startup sequencing facility in support of Tesla.
- Responsible for the on boarding of 400 + employees
- Conduct orientation and safety training
- Worked with Process Engineers to develop and document work instructions
- Organize training calendars and manage training assistants responsible for conducting the area specific training.
- Create and deliver presentations.
- Attend meetings with upper management to provide training updates and changes to the program.
- Work with onsite temp agency reps to coordinate rosters and hire/termination dates
- Co-Lead on the safety committee.

Logistics Specialist, CEVA Logistics, Redford, MI

October 2015 – August 2017

- Managed NPM and Pilot material exporting to 12 different affiliates overseas.
- Monitored 830 EDI releases to manage ahead/behind statuses with our suppliers.
- Supplier Follow Up: Communicated with suppliers to ensure their understanding and compliance of the orders along with managing the best method of transportation to ensure timely delivery.
- Provided direction to our shop floor as to what material to pack and used our WMS to generate orders for the floor to fulfill.
- Provided pricing to our final customers, generated invoices, and submitted ASN's for tracking.
- Active team member in our Workplace Organization group.
 - This group is responsible for identifying continuous improvements in areas of the facility with the goal to eliminate NVAA (non-value add activities) while promoting safety and quality.
